OBJECTIVE

I've been working with Ruby on Rails and related technologies for 2 years. I've got a big experience in business with different clients also at russian/international freelance desks. So, I always do my best to use all my knowledge, experience and skills in every project. I really love what I do. Looking for a company which will challenge my developer and problem-solving skills and allow me to continue to develop my knowledge and potential.

I've got an experience with:

- **Frameworks:** Rails, Angular
- **Databases:** Postgres, Redis, Sqlite
- **Background jobs, Schedules:** Sidekiq, Sidekiq-scheduler, Cron
- **Integrations**: Mailchimp, AWS(S3), Payment(Stripe, Assist), WebRTC(tokbox)
- **Testing:** RSpec + FactoryGirl + Capybara
- **Deploy:** Capistrano, Heroku, Docker(low level)
- **Authorization:** Devise, Sorcery, OAuth, Recaptcha
- **Admin panels**: ActiveAdmin, RailsAdmin
